## **THE KEEPERS STOCKHOLDERS' ANNUAL REPORT**

Since the start of the pandemic back at the end of the first quarter of 2020, many corporations' resilience and true strength were continually tested, most especially those engaged in the premium alcohol beverage industry.

A crisis of this magnitude and intensity, where distribution channels were shut down, movement of goods stopped, social gatherings banned, consumption disallowed, travel and tourism restricted, would bring any company to its knees.

Amid this backdrop, management began the process of restructuring a non-operational listed shell company called Da Vinci Capital or Davin, into a commercially operating business, thru the spin-off of the liquor distribution business of Cosco Capital to Davin thru a share swap transaction.

On November 19, 2021 and after all regulatory clearances and approvals were received, your company successfully implemented a follow-on offering and listing of additional new shares from its expanded capital stock at the PSE that raised P4.5 pesos in fresh equity and brought the public float to 20.5% in compliance with existing listing regulations.

2021 however continued to test us with the effects of the pandemic still lingering.

On-premise and travel retail are still 50% at best, of their pre-pandemic levels and the second half of the year brought us supply issues, creeping costs and shipping line disruptions.

Through sheer grit and commitment your company closed 2021 on a high note, topline P11b pesos and delivering a bottom line of P1.6b pesos. A significant 35% growth in the top line and 34% in the bottom line.

The 35 % growth over the previous year, was a result of the 32% growth in volume of cases sold, totaling more than 4.46 million cases, driven by the continued robust performance of Alfonso, the leading imported brandy in the market, which has already surpassed its pre-pandemic levels.

Keepers all-time-high consolidated net income of P1.6b pesos or an increase of 34% over prior years net is a result of strong sales and strategic cost control.

The industry is on the uptrend, with bans lifted and social protocols softened, more consumers are going out and enjoying our products.

The general consumer trend is premiumization, which offers a strategic fit with our product portfolio.

And this premium segment is at a nascent stage and growing faster than the industry rate.

The business model and agile operating units thrive and continue to deliver strong results in the face of the pandemic and disruptions.

Our portfolio of leading world-class brands, though affected by the restrictions is very much attractive to consumers.

With extensive and long-standing relationships with multinational brand owners, high potential for sustained long-term growth is evident in this segment of ours.

Keepers being the largest aggregator and distributor of imported spirits in the Philippines holding a leading position in the market with a share of 74% of imported spirits based on volume according to International Wine and Spirit Record.

The synergy and seamless relationship with Puregold and S&R present a strong competitive advantage for Keepers.. Puregold and S&R have a vast nationwide network of 452 retail stores as of end-2021, providing us with extensive retail touchpoints covering practically all market segments.

Our employees have shown tremendous resilience and dedication, that is why our first priority has been their health, safety, and wellbeing. We make sure that health standards and protocols are properly practiced and observed in the work environment.

Moving forward, as the on-trade and travel retail channels reach their pre-pandemic levels and consumers go out as frequently as they did.

We see further growth coming from revenue streams that took a pause because of the pandemic.

And with the momentum of our biggest category...the brandy category...and the strong fundamentals of the company.

Your company, Keepers, has been and will continue to deliver stronger numbers in the years to come.
